Capcom Announces *Monster Hunter Rise!*

two new titles scheduled for release on Nintendo Switch -

Capcom Co., Ltd. (Capcom) today revealed *Monster Hunter Rise* and *Monster Hunter Stories 2: Wings of Ruin*, two new titles for Nintendo Switch. Both titles will be released worldwide, with *Monster Hunter Rise* scheduled for release on March 26, 2021, and *Monster Hunter Stories 2: Wings of Ruin* scheduled for summer 2021.

The *Monster Hunter* series consists of hunting action games that pit players against giant monsters in a beautiful natural environment. Beginning with the first title in 2004, the series established a new genre in which players cooperate to hunt ferocious monsters with their friends and has since grown into a global phenomenon with cumulative sales of the series exceeding 64 million units shipped as of June 30, 2020.

Monster Hunter Rise is an all-new *Monster Hunter* experience developed for Nintendo Switch. The game provides a completely fresh take on the hunting experience through new mechanics such as the Wirebug, a wire-based grappling action that allows players to traverse dangerous or rocky terrain at high speeds, as well as with the debut of new hunting partners called Palamutes. The game is currently being developed with Capcom's proprietary RE ENGINE in order to provide a new, approachable *Monster Hunter* experience that can be enjoyed anytime, anywhere and with anyone. Further, Capcom is also developing the role-playing game *Monster Hunter Stories 2: Wings of Ruin* in order to provide an enjoyable experience for fans of *Monster Hunter* and RPGs alike.

Capcom remains firmly committed to satisfying the expectations of all stakeholders by leveraging its industry-leading game development capabilities in order to create highly entertaining gameplay experiences.
